

2019 Industrial Hemp Contract

Any customer submitting an order for Industrial Hemp must provide a copy of their valid Oregon Department of

Agriculture Industrial Hemp Grower Registration before orders can be processed.

Seed

- Seed should be labeled (variety name, qty, weight, germination percentage) *NWT will not be responsible for germination percentage expectations without proper labeling of qty and germination % from certified lab.
- Seed should be accompanied by a germination test from a certified lab.
- Seed with a germination test below 80% recovery will be subject to special pricing.
- NWT agrees to store seed in an onsite secure and climate-controlled environment while in production.
- Any remaining seed on NWT property must be picked up on final plant out-date.
- Seed remaining after production period may be subject to a storage fee.
- NWT will ship remaining seed for the cost of postage plus a \$10 processing fee.

Plant Care

- Please remember: Plants during production (from seed to start) are under the care of NWT and are not NWT's property.
- The period of time, where the seed has been started through the outdate, is considered the Production Period.
- NWT agrees to care for all plants to the best of our ability until the plant has reached the outdate.

Deliveries must be scheduled 2 weeks prior to plant out-date

Pick ups must be scheduled 1 week prior to plant out-date

- All plants must leave NWT property by their agreed upon out-date. If plants are not picked up on time, the customer will be fully responsible, financially or otherwise, for testing and disposal of plant material.
- Plants left after their outdate will be subject to additional production fees (Weekly \$17.50/M).
- Plant material that is left more than 20 days passed the outdate may be dumped and subject to a disposal fee (\$10/M).
- NWT will not be held liable for failed Oregon Department of Agriculture required tests.
- In the event of plant or seed loss due to improper handling or negligence by NWT, the sole decision to either refund or apply credit toward future orders will be made on a case-by-case

basis.

- NWT is not responsible for the quality of any plant material shipped after the outdate.

Shipping

Delivery is available if coordinated 2 weeks prior (2 weeks before out-date)

- Forklift or similar equipment is needed for unloading plant material during on-site delivery. If equipment is not available, please make the proper labor arrangements to assist with unloading - 4 people is ideal.
- Each order will be tied to a specific delivery location. If there are multiple locations, each location will be billed as its own order.
- Shipping costs are calculated on a per-delivery basis.
- Drop ships to multiple locations will be subject to an additional delivery fees.
- On delivery or pick up, NWT will collect the final payment and schedule tray return.

Return of NWT Property

- All 144 and 231 trays must be returned to Northwest Transplants within 20 days of delivery/pick up.
- The person that placed the original order will be responsible for returning trays and paying for any unreturned or damaged trays.
- Unreturned trays will be billed at \$10.00 each.
- For new or customers who have abused the tray care policies, NWT reserves the right to charge a deposit of \$10 per tray prior to the plants being picked up (1 week prior to the out date).
- NWT will reimburse said deposit, less any damages or missing trays.
- A \$200 credit for future order is available to customer who return trays in a clean and orderly manner. This includes tapping out remaining soil debris and stacking trays onto a pallet or into neat stacks of 20.

NWT and grower must sign written agreement for return date for trays on or before pick up/ delivery

Terms and Billing

- A minimum prepayment of 75% is required on all industrial hemp orders prior to seeding.
- The final 25% will be due on pick up or delivery before plants are released.
- Credit Card Payments will be subject to a 2% fee.
- All plants must be removed from NWT property, including plant overages.

General Pricing

- Quoted pricing is for seed with germination rate **80% and higher**.
- Germination percentages below 80% will be subject to an additional 1% charge per

percentage below 80. (eg: 65% germination = 15% additional charge)

- A 90-day lead time is required to guarantee production in 144.

Conventional Price per Thousand

144 Cell: \$105/M

231 Cell: \$75/M

Conventional Price per Tray

available in 98 cell

\$25/Tray

Organic Price per Thousand

144 Cell: \$152.25/M

231 Cell: \$108.75/M

Organic Price per Tray

available in 98 cell

\$44.50/Tray

Tray Information

Tray Size	Dimensions	Soil Volume	Material
144 Cell	10.5 x 21 x 2.25 in.	26 cu/cm	Rigid – Injection Molded - HDPE
231 Cell	10.5 x 21 x 2.25 in.	20 cu/cm	Rigid – Injection Molded - HDPE
98 Cell	11 x 21.25 x 2.25 in.	36 cu/cm	Flexible – Vacuum Formed Polystyrene
